### ISSWM-2023

### 22<sup>nd</sup> – 23<sup>rd</sup> September 2023 (Hybrid)

Organized by  
**Institute of Engineering & Management, Kolkata, India**  
Under the aegis of  
**International Society of Waste Management, Air and Water (ISWMAW)**

Institute of Engineering & Management, Kolkata will host the International Symposium on Sustainable Waste Management (ISSWM-2023) that will provide a forum for sharing knowledge among researchers and practitioners offering deeper insight into the field of solid & liquid waste management including industrial waste, municipal solid waste, e-waste & plastic wastes, waste water and sludge treatment. ISSWM-2023 will bring together and support enthusiastic researchers in carrying their work forward for environmental sustainability. As articulated in SDG sustainable waste management, sanitation and resource conservation are fundamental goals of the United Nations. This has direct bearing on the quality of life for all, but more specifically, communities in the cities. ISSWM - 2023 will deliberate on various issues related to innovation and implementation in waste management, including policies & strategies, segregation, collection, transportation, biological, thermal and mechanical treatment technologies, LCA, climate change, circular economy, research, business opportunities etc. Nearly 200 delegates from different countries are expected to participate in the symposium. A meeting will be held with the researchers for collaborating research projects and paper writing during the event.
